of these aircreft are type 30. The former location of the jot bombers
has not been determined but it is believed that the planes previously
belonged to the Northern Bur Div because it was observed that the regiments of this division have fewer aircraft.

Comment. This information confirms a previous report, according
to which railread tank cars were shipped from Riesa fuel depot to the
ground units of the two regiments in Finsterwalds on
li January 1952.
